

A Quantitative Approach to Fundamental Investing

Markets Can Be Inefficient: We believe that **market structures** and **behavioral influences** lead to market inefficiencies that can be exploited.

Empirically Supported Analysis: Our strategies seek a link between **company fundamentals** and future performance.

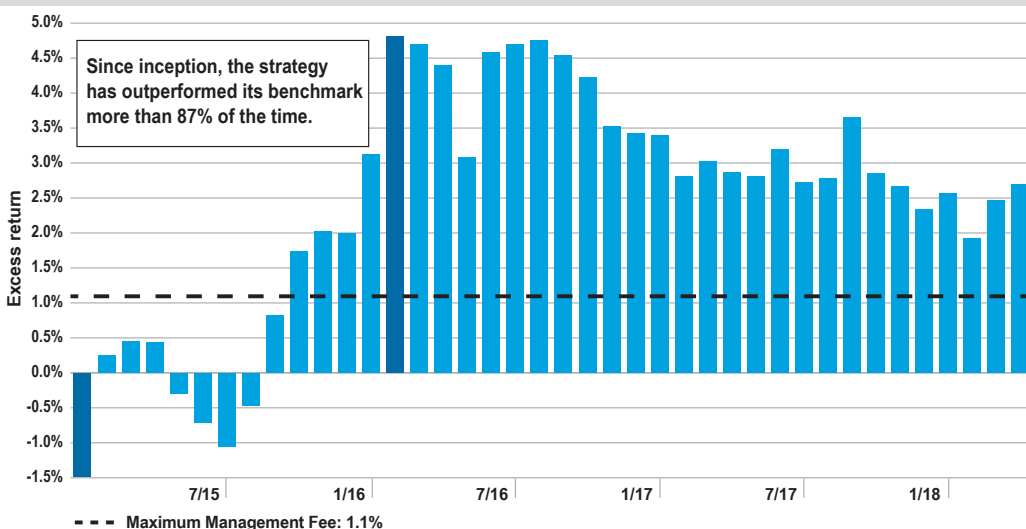

Active Management: We construct **high conviction, focused portfolios** to extract maximum benefit from factor exposures.

FOCUSED ON ALPHA FACTORS

- Factor exposure (rather than style exposure) may lead to long-term success.
- Dividend policies should reflect a long history of increasing dividends.
- Steady earnings should support business stability and allow adequate dividend coverage.
- Financial strength should be shown through liquidity and high creditworthiness.

The Dividend Equity Composite comprises equity portfolios invested according to our Dividend Equity strategy. These are focused 30 stocks, long-only, U.S.-listed large and mid-cap equity portfolios. Selected stocks display sustainability of dividend growth and its fundamental drivers: established dividend policy reflected in a long history of increasing dividends; business stability supported by steady earnings; financial strength as evidenced by liquidity and high creditworthiness; and adequate dividend coverage. The strategy follows a systematic discipline, with quarterly rebalancing. Interim adjustments may be made to the portfolio due to corporate events. The minimum account value for inclusion in the composite is \$100,000. The composite was created January 1, 2012. A complete list and description of firm composites is available upon request.

Performance Calculations: Valuations and returns are computed and stated in U.S. dollars. Results reflect the reinvestment of dividends and other earnings. Gross of fee returns are presented before management and custodial fees, but after all trading expenses and withholding taxes. Net of fees returns are calculated applying the maximum potential annual fee of 1.1% and are presented after all management, custody, trading and withholding taxes. The standard management fee for the Dividend Equity strategy is 1.1% per annum on the first \$3 million, with a tiered fee schedule on additional assets. Additional information on our

fees is included in Alpha Quant's Form ADV Part 2. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request.
